MD OMIT HASAN

Senior Software Engineer | 5.2 Years Experience

CAREER OBJECTIVE

Innovative software engineer seeking a challenging role to leverage full-stack development expertise and AI-driven tools to build next-generation applications. Passionate about integrating modern AI technologies into the software development lifecycle to accelerate delivery, improve code quality, and drive impactful solutions that foster continuous learning and business growth.

PROFESSIONAL SUMMARY

A results-driven software engineer with 5.2 years of expertise in full-stack development, proficient in PHP (Laravel), JavaScript, VueJS, Flutter, and modern web frameworks. Proven track record of delivering scalable ERP systems, SaaS platforms, and e-commerce solutions in agile environments. Adept at leveraging AI-powered tools including ChatGPT, Claude AI, GitHub Copilot, and Cursor to accelerate development workflows, automate code reviews, and enhance software quality. Strong problem-solver with experience designing multi-tenant architectures and building user-centric applications that exceed client expectations.
